# DATA STATEMENT SETTINGS
IN THE NEW INTERNET BANKING

1. In the "Statements" section, click on the "New data statement" button on the right.

2. Here, select the account, language, format you require and enter the number you wish your statements to start at. Next, select whether you would like to receive statements by email. You can set only one email. Once you have done this, statements will be automatically generated until you cancel that setting.
